

Herselves

I swear,

there's connectivity
in the prefix: *cyto-*

from κύτος
for jar

/•/

the implied privacy of a medical record

here it is floating—

the history / of night
doctors

as inseparable from the culture

of cells
as the intervening sky: astounding

/•/

a protein lodged in the bilayer;

a pair of fluorescent Xs
emblazoned on the night sky;

the inside of the body
studded with pearls;

a cleanroom
a shrine

/•/

2

below said platform and comprising a valve casing having a bore therethrough, a movable valve member within said bore, and means for sequentially moving said member
5 between a first position wherein source of molten plastic communicates with flow passage and a second position wherein source of compressed air communicates with said passage.¹¹

¹⁰ Kelley's water broke on her first good push. The doctor shielded herself with a clear plastic apron and ducked out of the way like a bullfighter.

¹¹ This morning I felt the polar bear kick. Or was it a hiccup?

change is love.

When I'm with you it becomes manifest that

3. The structure of claim 2 in which means are provided for pushing plastic products formed by said mold sections out of the path of the same while said sections
45 are spaced from each other.¹⁰

4. A valve assembly for controlling the flow of molten plastic and compressed air to said mold sections, said assembly disposed

Leaf is All

Eyes flicker,
curl into a corner.
An apology contains
a whole truth

relevant only to remorse.

The seed is contraction
and the fruit expansion
all is leaf—

Foreshadowed pattern, folded in the shell,

a placard on the bus, entitled thus:

we've been here before.
